

Product Highlights

- ◆ Enviroklean is a stain neutralizer and multi-purpose cleaner.
- ◆ Removes various stains including rust, mildew, brake dust, carbon, food products, grease and oil from metal and painted surfaces.
- ◆ Easily applied.
- ◆ Readily biodegradable and is guaranteed environmentally friendly.

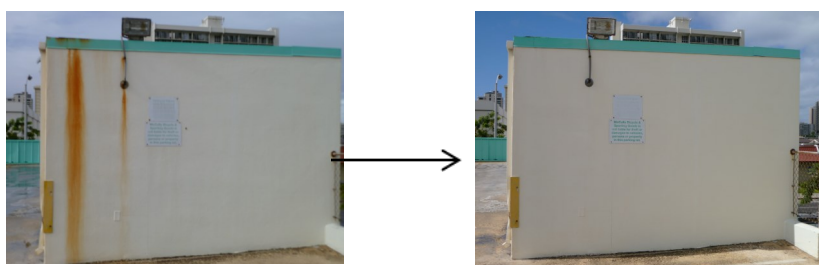

Directions

- ◆ The preferred method is to spray the stained area and leave the product for about 15 minutes (the time will vary with the degree of staining needed to be cleaned). After this is done, the cleaned area is to be rinsed with fresh water.
- ◆ When foaming, the required cleaning time is about one hour (depending on the degree of staining). For heavy corrosion, Enviroklean Plus should be used prior to using Enviroklean. This allows Enviroklean to fully penetrate the metal thus resulting in optimum performance of the product.
- ◆ For heavy corrosion, Enviroklean Plus should be used prior to using Enviroklean. This allows Enviroklean to fully penetrate the metal thus resulting in optimum performance of the product.

Product uses

- ◆ Cleans stains found on carpets and upholstery, siding and concrete, fiberglass, clothing, swimming pool coping, ceramic tiles, garden furniture, car wheels, boat hulls, and hardware, rails and sails.
- ◆ Enviroklean can be used on almost all metals including stainless and aluminum. Enviroklean can dull some aluminum. Test for compatibility in a non-conspicuous area)
